

Crisis Assessment Center (CAC)

Services Provided

The goal is for treatment to remain community based with onsite crisis assessment, crisis intervention services, and referrals to other in-house and outside agencies as appropriate.

A next day follow-up will be conducted to re-evaluate status, level of symptoms, and overall effectiveness of implemented intervention plan

If appropriate, onsite crisis stabilization assessments will be completed. Crisis Stabilization Services are equipped to work with individuals in their home and the community for up to 15 days.

Now providing services for children ages 5 and up

The Road Recovery
